Subject: Building Notes

March has been a busy month full of excellent learning experiences. A year ago, we developed a Building Enrichment Committee that oversees an after-school program, ASPIRE. The vision of ASPIRE is to give students a space for an after school program that will inspire, reinforce and enrich. We extend our appreciation to Judy Larkin for providing the leadership that this program needs.

Student Council just finished their annual Pennies for Patients drive. Our students raised over two thousand dollars that will be donated to the Leukemia & Lymphoma Society which is the largest voluntary health agency dedicated to the fighting of blood cancers.

Thank you to Officer Eisert for doing a refresher ALICE training with the students. This training covers the possible steps of action to take if an emergency situation were to arise in the building. Officer Eisert does a great job of making the information accessible to the students.

A big congratulations to Lloyd Sarasin for winning the VFW Teacher of the Year for the middle school. Lloyd is a dedicated teacher that has worked extremely hard to develop his craft and has excelled as a teacher here at Wapakoneta Middle School.
